The Christmas Card.

About a hundred years ago the first

Christmas cards were used. These

were printed in London and consisted

of a visiting card with the words:

"A Merry Christmas," printed on it.

Later the cards were made with a little

scenery on them and a picture of the robin. This bird was used because

he is called the English Christmas bird, and also "The Saviour bird"

on account of the old legend regarding its red breast. From this time

on the cards became more numerous

and of more varied kinds.

A little knowledge is a dangerous thing, especially on Christmas eve, when a kid discovers his father acting the part of Santa Claus.

E. F. Moran has just returned

from Tyrone, where he has just com-

pleted the masonry work on eight

of their public buildings.

Gifts That Girls Will Enjoy

Collar and Cuff Set for Christmas

Quaker collars and cuff sets of organdy are easily made and among the most beautiful of dress accessories. They make charming Christmas gifts, and may be made at small cost.

Sheer materials in cotton or linen are used to make them, with hemstitching, narrow lingerie lace or embroidery in small sprays forming the decorative features. A quaker set edged with lace lace is shown in the picture.

Gauze Bag Holding Puff Balls

Game bags, made to hold individual powder puff balls, are among the popular new fads that make lovely Christmas gifts. They are made of chiffon, silk muslin or gauze, gathered over a silk-covered embroidery hoop. Bunches of light satin ribbon are fastened at each side of the hoop with a rosette.

The balls, of absorbent cotton, are finished with tiny bows of baby ribbon matching the bags in color. As soon as used they are thrown away.

Flowered silk muslin makes pretty bags, with ribbon borders matching the flowers in color. The little bows are sewed to the bags at the side of the dressing case for the convenience of guests.

Calendar and Hatpin Holder

An attractive calendar for a girl's room and a hatpin holder are shown in the picture above. The hatpin holder is merely a small pasteboard tube covered with moire ribbon with tiny brass buckles, handle and straps of a narrow ribbon. It simulates a golf bag and a hatpin imitating a golf stick comes with it.

The calendar consists of a circular piece having two small feet on one edge, cut from a sheet of celluloid. Two small oblong openings, one longer than the other, are cut opposite the feet.

The face of the calendar is decorated with a painted holly wreath and gilt lettering within it.

Two smaller circles swing on a pivot back of the calendar's face, with the names of the months on one and numerals from 1 to 31 on the other. The tiny pivot is concealed by the feet.

The face of the calendar is decorated with a painted holly wreath and gilt lettering within it.

The calendar is supported like an easel by a strip fastened on at the back.
